

# Digital Wheatstone™

Ultra-High Resolution Stereoscopic Display

Enhance your production team's ability to view 3D in high resolution with no distortion - at your workstation. The Digital Wheatstone is excellent for bringing content displays to life in exhibitions, trade-shows and other public venues.

- Stunning stereoscopic resolution - highest available in a workstation
- Razor-sharp 2560x1600 per-eye with no glasses required
- True 60Hz with no temporal artifacts and zero crosstalk
- Wide field of view with user-adjustable option
- Portrait mode option
